DESCRIPTION

american time™ guards are plated and clear coated for corrosion resistance and optimal appearance. The finish on the guards is designed for protection wherever they are used. These guards are manufactured with #3 gauge, (approx. .250" diameter) and #6 gauge (approx. .200" diameter) wire material. Guards have welded tabs with mounting holes (designed to accept .250" diameter fastening lags, bolts or screws) for easy installation. Measurements are inside dimensions.
