Weather-Resistant Electric Clocks Metal Case

FEATURES

- 1 Year Warranty
- 120vac operating voltage
- Heavy-duty all metal case
- Durable powder coat finish
- Plexiglass crystal
- Non-corrective

GENERAL

Electric weather-resistant clocks are modern non-corrective clocks designed to be durable, dependable and easy to read. They are available in two sizes.

DESCRIPTION

Clock bezel is constructed of durable, 21 gauge cold rolled steel, manufactured to specific high quality standards, with a durable powder coat finish. Dials are laminated plastic to resist warping. Shatter-resistant plexiglass crystal resists scratching and discoloration. The hour and minute hands are black aluminum. Sweep second hand is red aluminum.

The 18" and 24" clocks include a bottom reset movement with a 6' cord with 3 prong plug (no DST adjustment). The movements are protected inside an enclosure to prevent dust and water from getting in, ensuring problem-free operation.

ORDERING INFORMATION

Part #	Description
R74BWAB989	18" Round, surface, bottom reset, Black Sand
R84BWAB989	24" Round, surface, bottom reset, Black Sand

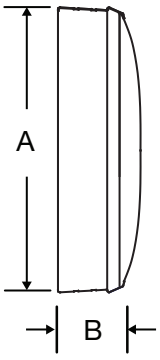
BEZEL FINISH

Black Sand

SPECIFICATIONS

Operating voltage range:	100-130vac
Accuracy:	AllSet-rear reset: Typical ±0.8 Sec/Day
	Bottom reset: Typical ±1 Sec/Day
Operating temp range:	AllSet-rear reset: -5˚F to 140˚F
	Bottom reset: -40˚F to 170˚F
Torque @ second shaft:	0.4 g/cm

Steel
surface mount



OUTSIDE DIMENSIONS
