

Replacement for Synchronous-Wired 60th Minute Motor Movement

FEATURES

- Complete with correction coil
- Set hands at 6:00 when replacing
- Includes hands for a 12" dial

DESCRIPTION

This corrective movement performs a 12 hour correction twice daily at 6:00:00 with a 25 or 27 minute correction pulse from the system master clock. It performs an hourly correction at HH:00:00 (top of each hour) with a 25 second signal from the system master clock. Replacement movements are supplied with hands for a 12" clock which should be set at 6:00
