# Specialty Clocks – ETI

Specialty clocks perform unique functions, such as monitoring elapsed time on a digital display or replacing malfunctioning clocks that no longer properly display the time. Look through this section to find a variety of specialty timers and digital clocks.

If you can't find what you're looking for or have questions, call us at 800-328-8996.

Education

Schools and colleges use the count-down function of Elapsed Time Indicators for timed tests.

Health Care

Hospitals rely on the count-up and Code Blue functions of Elapsed Time Indicators for surgeries.

International Business

Our wired, 4", 6-digit ETI's, are available in 220vac and 50/60Hz.

TWO-IN-ONE
Accurate Real Time Wall Clock Converts to Measure Elapsed Time

These clocks are 6 digit multi-function clocks/timers which can be used as an up or down counting elapsed timer with an optional Code Blue trigger.

The Code Blue feature provides an override that forces the clock into a special count-up elapsed time mode. No matter which of the three normal functions is being displayed, Code Blue input will cause the unit to begin counting elapsed time from 00:00:00.

All other functions of the unit continue to operate in the background during a Code Blue.

- Multifunction Operating Room/ICU Elapsed Timer when combined with the ATSTCS timer control station
- Count UP/DOWN timer with audible alarm and hold (volume not adjustable)
- 6-digit, red LED indicates hours, minutes and seconds
- Hour and minute digits are 2.3" high; seconds are 1" high
- Visibility - 100 feet
- Setting and control via Timer Control Station using included 20' cable or up to 30' maximum using 22 AWG stranded wire, minimum $\frac{1}{32}$" thick insulation
- **Surface** mount to a standard single gang or 4" square box
- **Surface** - black anodized aluminum frame
- **Flush** - matte white steel frame (includes backbox)

Surface Mount
6⅛" × 12" × 3½"d

Flush Mount
Front: 8³⁄₈"h x 13³⁄₈"w
Enclosure: 7³⁄₈"h x 12³⁄₈"w x 3³⁄₈"d

ATSTCS Timer Control Station
Must purchase this Timer Control Station with any ETI clock on this page (includes 2 keys).
