WARRANTY

3 Wire Synchronous Dial Style 91

1 - Wired System Clocks

**Steel Case 120vac**

<b>3 Wire Synchronous 56th Minute Correction</b>			
Model No.	Original No.	Description	Each
V54BHAS491-WEB	WX3012	12" Round Surface	\$179.95
V55BHAS891-WEB	WX3112	12" Round Flush	\$179.95
V64BHAS491-WEB	WX3015	15" Round Surface	\$199.95
V65BHAS891-WEB	WX3115	15" Round Flush	\$199.95

For 24vac/24vac\* Add \$ 5.00 \*Call us for Model No.

**Steel Case 24vdc**

<b>2 Wire Impulse 58th Minute Correction (Hourly only)</b>			
Model No.	Original No.	Description	Each
V54BHFH491-WEB	A3012	12" Round Surface	\$179.95
V55BHFH891-WEB	A3112	12" Round Flush	\$179.95
V64BHFH491-WEB	A3015	15" Round Surface	\$199.95

<b>3 Wire Impulse 59th Minute Correction (Hourly only)</b>			
Model No.	Orig. No.	Description	Each
V54BHJF491-WEB	AX3012	12" Round Surface	\$179.95
V55BHJF891-WEB	AX3112	12" Round Flush	\$179.95
V64BHJF491-WEB	AX3015	15" Round Surface	\$199.95

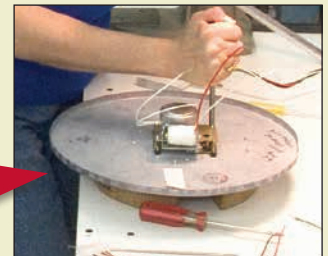

**FYI** Synchronous Wired Correction (56th min.) Protocol for Stromberg WX Series (for above clocks)  
 120vac or 24vac is used to operate the clocks normally. Relay SK1 is normally operated to supply run motor power. Relay SK2 activates each hour from HH:56:10 to HH:56:18 causing an 8 second signal to be transmitted on the correction line for hourly correction. Relay SK2 activates each 12 hours from 11:56:36 to 11:56:50 causing an additional 14 second signal to be transmitted on the correction line for 12 hour correction.

**CLOCK PARTS AND ACCESSORIES**

**Flush Backbox** (for use with above clocks)

**CFB113-WEB \$17.95**  
 (10", 12", 15")
