## AllSync Plus ${ }^{\circ}$ <br> Flush Metal Case

## american <br> time. <br> Integrated Solutions

## FEATURES

- 3 Year Warranty
- Microprocessor controlled movement
- 15 minutes of backup power (no batteries required)
- Accuracy to within $\pm 1$ second of a master clock
- Reduced power consumption
- Attractive modern design
- Heavy-duty construction
- Metal case
- Diagnostic LED

## DESCRIPTION

The American Time ${ }^{\bullet}$ AllSync Plus clocks are provided in round or square metal cases with glass (10" and 12" round) or plexiglass ( 12 " square and $155^{\prime \prime}$ ) crystals and bold, black numerals and minute markers on a non-yellowing white dial. Stylish hour and minute hands are aluminum with a black finish and a red sweep second hand.

AllSync Plus clocks are designed to work with multiple master clocks and correction signals. This unit is programmed to identify the signal it receives from the master and operate as that style of clock. Changing clock operation from one style to another is as easy as unplugging the clock from one system and plugging it into another. If needed, changing the placement of two small jumpers on the circuit board can change the voltage required to run this clock from 120 vac to 24 vac or 24 vac to 120 vac . This clock provides 15 minutes of backup run power without the use of batteries. If a power outage should last longer than 15 minutes, the clock will synchronize to the master clock at the hourly and 12 hour correction cycles.

## Correction Signals

Works on:

- Hourly correction: 7-9 seconds starting at the 57th minute and 54th second. 12 hour correction: 13-18 seconds starting at 5:57:54 (am and pm).
- Hourly correction: 24-28.5 seconds starting at the 0 minute and 0 second. 12 hour correction: 24-32 minutes starting at 6:00:00 (am and pm).
- *Hourly correction: 54-56 seconds starting at the 58 th minute and 5 th second. 12 hour correction: 10 pulses of $94-96$ seconds starting at 5:05:00 (am and pm ) and repeating every 2 minutes.
- Hourly correction: 24-26 seconds starting at 0 minute and 0 second. 12 hour correction: 25 pulses of $24-26$ seconds starting at 6:00:00 (am and pm) and repeating every 60 seconds.
- Hourly correction: 63-67 seconds starting at the 58 th minute and 0 second. 12 hour correction: 14 pulses of 63-67 seconds starting at 5:06:00 (am and pm ) and repeating every 2 minutes.
- *Hourly correction: 54-56 seconds starting at the 58 th minute and 5 th second. 12 hour correction: 12 pulses of 63-67 seconds starting at 5:05:00 (am and pm) repeating every 90 seconds.

## *Note:

When switching between these correction protocols, you must use a different correction protocol to complete the transition. The AllSync Plus clock needs to distinguish between hourly corrections before it can change correction protocols internally.

## COMPLIANCE

- FCC Part 15 Class B
- ICES-003
- 120vac $50 / 60 \mathrm{~Hz}$ or 24 vac $50 / 60 \mathrm{~Hz}$
- Current draw: 24vac, 1 watt, .043 amps
$120 \mathrm{vac}, 3$ watts, . 028 amps
GENERAL
Types of secondary clocks compatible with AllSync Plus:
Cincinnati WS*, *D-8, *D-10, *D-12 Series
Dukane 24SS* Series, 240* Series
Edwards *010 \& *012 Series
Faraday 2315*, 2316*, 2335*, 2336*, 2380*, 2382*, 2310*, 2320*, 2330*, 2313*, 2314*, 2333*,
1310 through 1431 Series and 2420* through 2431* Series
Honeywell ST402A* Series
Lathem Type SS* Series
National Time *EX-HH and *EX-LL Series
Simplex \& IBM 77* Series, 82* Series, 2310-92* Series, 6310-92* Series
*Indicates more numbers before or after.

## Note:

Replace the ? in the part number with the number from the list below that will correspond with the system you're replacing. New flush mount installations require backboxes.

| $0=$ Faraday | $1=$ National | $5=$ Simplex ${ }^{\circ} \quad 6=$ Cincinnati/Edwards |
| :--- | :--- | :--- |
| $7=2$-hook | $8=$ Setco | $9=$ R\&H (keyhole) |

For a plexiglass crystal, replace the BH or GH in the part number with BG or GG. Square and 15 " clocks available with plexiglass crystal only.

[^0]BEZEL FINISHES

Black Sand=BH
Matte finish

Steel Gray=GH Smooth satin finish 12 " round only

| Steel <br> flush mount | OUTSIDE DIMENSIONS <br> Round <br> "A" Dimensions: <br> for 10" clocks <br> $131 / 4^{\prime \prime}$ for 12" clocks <br> 16 " for 15" clocks |
| :--- | :--- |
| "B" Dimensions: |  |
| $15 / 8^{\prime \prime}$ for 10", 12" \& 15" clocks |  |
