Wall Shelf

Part # H002647

The Wall Shelf provides adequate space for the SiteSync IQ™ System Controller and transmitter, if applicable.

The Wall Shelf arrives fully assembled in the folded position. To mount, simply rotate the rear panel 90 degrees so the front panel flanges insert into the rear panel cutouts. The keyhole mounting slots are spaced to hang on 16" stud centers and slotted to mount inverted if needed.

To facilitate organized wire management and clean presentation of equipment, the top of the shelf includes two oblong cutouts for wire drop-down. The wall side of the shelf includes a large center opening for versatile wire access and placement over existing outlets.

GENERAL INFORMATION

- Dimensions:........ 18.218"w x 14"d x 8.244"h

- Maximum load:... 100 lbs.

- Color: .... Black
