STI BOPPER STOPPER®

STI-6518

ADA Compliant

See reverse for details

PRODUCT OVERVIEW

Inexpensive and highly durable, these hinged covers live up to their name and can be used in a wide range of applications. Bopper Stopper can take hard knocks in stride while protecting digital keypads, electrical outlets, smaller-size pull stations, biometrics, volume or lighting controls and push buttons to name just a few. The covers and hinges are molded of super tough polycarbonate material. The devices feature a stainless steel torsion spring to keep the cover closed (excludes STI-6528). Bopper Stoppers come complete with installation screws and gasket.

BACKED BY A THREE YEAR GUARANTEE

As all STI protective covers, these Bopper Stoppers are backed by a three year guarantee against breakage in normal use. They are also highly cost effective and easy to install.

KEY FEATURES

General Information

· Protects against both vandalism and accidental damage.

· Helps protect: push button units, smaller-sized pull stations, keypads, electrical outlets, volume or lighting controls and shutdown switches.

· Helps stop ice and snow from making keypad units difficult to operate.

· Three year guarantee against breakage of polycarbonate in normal use.

Design

· Stainless steel torsion spring maintains the cover in a closed position (excludes STI-6528).

Construction

· Molded from super tough polycarbonate material.

Installation

· Fast, easy installation.

· Covers come complete with mounting hardware and gasket.

· Gasket replacement recommended after five years.

· Typical working properties of polycarbonate are -40° to 250°F (-40° to 121°C).

Options

· Available in many sizes, clear or smoke colored.
