

AllSet® Battery Clocks Aluminum Case

AllSet battery clocks are ideal for schools, hospitals, state and federal buildings. Clocks are provided in a round brushed aluminum case with shatter-resistant safety crystal and bold, black numerals and minute markers on a non-yellowing white dial. Stylish hour and minute hands are aluminum with a black finish and a red sweep hand.

FEATURES

- 3 Year Warranty
- Automatic adjustment for Daylight Saving Time
- Brushed aluminum case with built-in hanger
- Shatter-resistant polycarbonate crystal
- Sweep second hand
- 3 AA battery holder

SPECIFICATIONS

Operating voltage	1.5vdc
Operating voltage range	1.3 to 1.7vdc
Operating temp range	23 °F to 122 °F (-5°C to +50 °C)
Accuracy typical	±1 Sec/Day (at 1.5V)
Nominal torque at 1.5vdc	2.0 g/cm @ second shaft

DESCRIPTION

The AllSet quartz clock movement features a microchip with an internal battery that keeps track of the current date and time. The microchip is programmed to make daylight saving time changes at 03:00 am Eastern, 02:00 am Central, 01:00 am Mountain, and 12:00 am Pacific time twice per year. In the Spring, the movement will move the hands forward one hour at an accelerated speed. In the Fall, the movement will fast forward the hands and start ticking again when the clock is on time; adjusting back to standard time.

Clocks use a quartz-based battery movement which uses 3 AA alkaline batteries to extend maintenance-free clock operating life up to 4 years.

Note: Time must be manually set at startup and after replacing the batteries. Internal time/date is only used for moving hands for DST changes.

ORDERING INFORMATION

ALUMINUM CASE – ROUND

Part #	Description	Dia.	Depth
E54AGQD304	12" Surface Mount, Dial Style 04	13¾"	2⅝"
E64AGQD304	15" Surface Mount, Dial Style 04	16¼"	2⅝"

Notes: Change the 04 in Model # to change the dial style. Personalized dial option available. Add L to the end of the Part #. Call for details. Batteries not included.
