

**TITLE: TITLE: RACK MOUNT KIT, SITESYNC IQ SYSTEM CONTROLLER**

INSTRUCTION SHEET: 1585

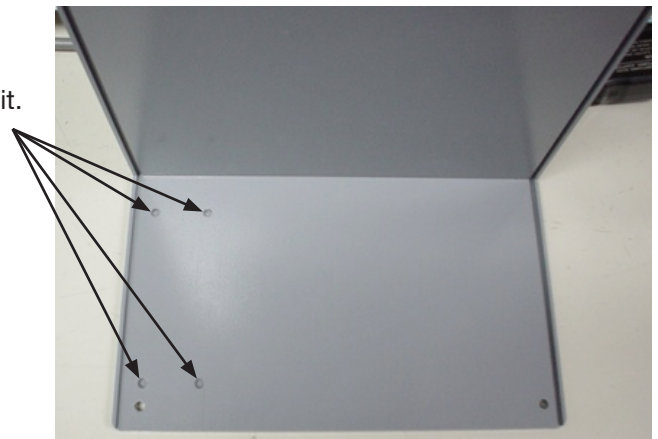

REVISION: 04

EFFECTIVE: 08-05-2016

1. Turn System Controller off.

2. Remove the four (6-32) screws holding the top cover on.

3. Drill out the eight pre-drilled mounting holes with a .1875" drill bit.

4. Re-install the top cover with the drilled holes to the front.

5. Install mounting brackets with slots to the front and secure with eight (6-32) screws.

6. Replace the screws in the back holes only from step 2.
